

Unlocking More Value: Universal Claims File Feeds

For small-mid size clients, Aetna makes it easy to connect to PBS for plan administration and data analytics. As a value-added service, Aetna offers two types of claims file feeds.

Choose the option that fits your needs:

Universal Claims Feed for HSA, HRA and FSA Administration A bi-weekly data feed available for groups with 2-200 enrolled employees.	OR	Universal Claims Feed for Data Analytic Partners A monthly data feed available for groups with 101-200 enrolled employees.
---	------------------	--

Important Details

- Both Claim File feed options are pushed to PBS.
- Both Claim File Feed options are a standardized feed; the information and fields sent to PBS are all the information PBS needs.
- To get started, please fill out the FTP Intake Form. You'll need to specify which file feed option you are requesting.
- Due to the information that is sent on universal file feeds, the client will need to complete a few forms.
- Integrating with PBS is only available at time of new sale or renewal.

PREFERRED VENDOR LIST

- PBS is Aetna's preferred vendor partner.
- Your PBS representative can answer questions and help to identify the solution that best fit your clients' needs.

*Not available for groups with an ACA plan
